An EABCT member

**International Association  
for Cognitive Psychotherapy**

Founded 1990

[www.the-ACP.com](http://www.the-ACP.com)

Cognitive-behavioral therapy (CBT) is an umbrella for a large number of evidence-based psychological treatments. CBT is therefore becoming the golden standard in the field of psychotherapy. This Congress will aim to: (1) present the state of the art applications of CBT in a large variety of clinical and non-clinical contexts; (2) present the latest research in the field with powerful clinical implications; (3) increase the internal cohesion of CBT, by moving the field from various “schools” to an integrative and multimodal approach; (4) promote CBT as the best platform for integrating psychotherapy in the evidence-based framework; and (5) stimulate frontier research in CBT and infuse CBT with frontier research from related fields.

In order to attain our objectives, we are working together with top researchers and clinicians in the field, who are involved in the scientific and/or organizing committees of the Congress.

**Honorary president of the Congress:**

- Aaron T. Beck, USA

- Lata K. McGinn, USA – Scientific advisor
- Philip Tata, UK – Scientific advisor

**The main decision body of the Congress:**

- Daniel O. David, Romania – President of the Congress
- Pim Cuijpers, The Netherlands – Scientific program chair
- Stefan G. Hofmann, USA – IACP president
- Rod Holland, UK – Scientific advisor
- Thomas Kalpakoglou, Greece – Scientific advisor

**The leaders of the local organizing committee:**

- Anca Dobrean, Romania – President of the Romanian Association of CBT
- Aurora Szentagotai, Romania – Scientific advisor
- Silviu A. Matu, Romania – Administrative coordinator
